Washington, D.C. – Congressman Charlie Wilson (OH-6) today released the following statement regarding the passage of the House amendment to the Senate amendment of H.R. 3773, FISA Amendments Act.

“I was proud to vote for today’s FISA bill because it protects our civil rights while giving our intelligence agencies the clarity they need to conduct eavesdropping on foreign targets. In these uncertain times, Americans have the right to be confident that their government is acting in a responsible way. This bill makes some common-sense adjustments to surveillance law, and it should encourage the American people that our government is committed to operating openly. I call on the Senate to pass this bill, and I hope the President will sign it.”
